

## Student Satisfaction Survey Report

The main purpose of conducting student satisfaction survey ((SSS) is to obtain the actionable data to improve the teaching and learning requirements and infrastructure of the institute. This survey provides a chance to the students to share their views on curriculum, infrastructure and overall functioning of the college. In this regard, Student Satisfaction Survey was conducted for the academic year 2021-22 through Google forms and the data related to various aspects of the college were collected from both Undergraduate (UG) and Postgraduate (PG) students. Total 20 questions on the different aspects such as Curriculum, Learning and Progress, Teaching and Evaluation, Teacher-Student relationship, Library facility, Laboratory Functioning, Infrastructure and student support and progression, opportunity for employment were asked in the survey. The details are appended below.

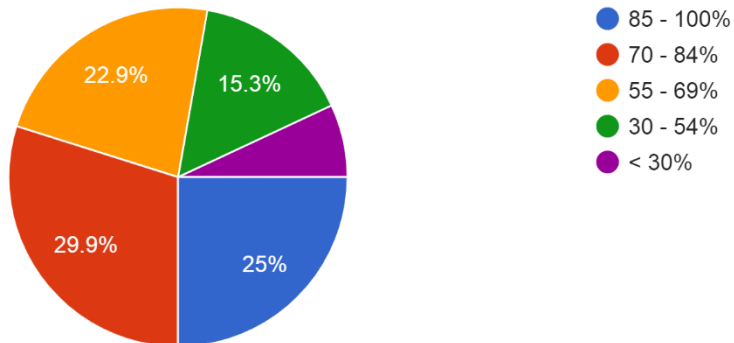

Student Satisfaction survey reveals that almost 55% students said that more than 70% of the syllabus was covered in the classes. Almost 80 % of the students were satisfied with the teaching skill and knowledge of the faculties and their preparation for the class. Among them 45 % students marked that the teachers were thoroughly prepared for classes. More than 90 % of the students were satisfied with the internal exam process and evaluation process of the college. 75 % of the students pointed out that their performance in the internal exams were discussed with them. Around 70% of students said that teachers encourage them to take field visit and to participate in student exchange programmes. Similar share of students said that the teachers support them towards cognitive, social and emotional growth. 60 % of participants said that the institute provides them various opportunities to learn and grow. 65% of the participants said that teachers regularly inform them about their expected competencies, courses outcomes and do follow-ups with the students. Nearly 82 % of students said the teacher illustrate the concepts through examples and applications. More than 82 % students said that institute makes effort to engage students in the monitoring, review and continuous quality improvement of the teaching learning process and teachers uses student- centric methods such as experimental learning, participative learning and problem solving methodologies to enhance learning experience of the students. 86 % of students said that teachers encourage them to participate in extracurricular activities. Nearly 65 % of students said the institute/ teachers make effort to inculcate soft skills, life skills and employability skills to make you ready for the world of work. 54% percentage of teachers use ICT tools such as LCD projector, Multimedia, etc. while Teaching. Nearly 73% of students said that the overall quality of teaching-learning process in your institute is very good. While 19 % remain neutral in their view. Many students provided suggestion to further improve the teaching learning experience in the college. Few suggestions are listed in the analysis report below. These suggestions have been thoroughly discussed in the NAAC core committee meetings for possible implementation in the next academic sessions.
